

Stainless Steel Two Hole 90° Angle Bracket

Features and Benefits

- Manufactured in 316 stainless steel for superior corrosion resistance, exceptional strength, and outstanding performance in harsh environments.
- Hygienic polished surface improves cleanability, resists microbial buildup, and delivers a consistent, professional appearance.
- Designed to fit standard 1-5/8" stainless steel strut channels.
- Heavy-duty design provides a stable base for strut/channel framing, ensuring long-term reliability of conduit and equipment supports.

Applications

- RMC's type 316 stainless steel 2-Hole 90° Angle Bracket is designed to provide a secure, corrosion-resistant connection point for strut/channel framing systems. With precision-drilled holes, this bracket allows for versatile mounting of strut to support conduit, piping, or equipment supports to beams, walls, or other structural members.

Material

- Body: Type 316 Stainless Steel

Certifications

- ASTM A240
- RoHS compliant
- REACH compliant
